12 December 1974

MEMORANDUM FOR:

Chief, PRD/IC

FROM :

EA/DCI

1. The Director would like a post mortem on OSR's memorandum "Evolution of Soviet Concepts and Forces for Nuclear War in Europe" (May 1974). The question to be explored is not were we right, or what went wrong, but rather which collection programs and analytical efforts went into piecing together this very interesting and potentially quite significant story.

2. Mr. Colby has spoken to Bill Nelson about his desire for this post mortem and requested DDO cooperation in your use of some of the very sensitive material involved.
